Nashville Opera Honse.

Owing to the very cold weather there was not a large attendance last night at the Theater to witness Statue Blanche, in which as the Statue, Miss Jenny Willmore made her debut. While because of the many pleasant notices so often bestowed upon her by the press of other cities, we anticipated much that was dramatic in her actng, yet our anticipations were more than Miss Willmore is perhaps one of the most fascinating actresses of her character Nashville ever had, and the frequent applause of the delighted andience testifies how justly her personations and songs were appreciated. site in form, sufficiently modest to command a proper deference and respect, vet sufficiently experienced in the art to suffer no embarassment, she is as impressive as she is graceful and easy in her motions. Such exquisite gestures, unique expression of eling, graceful attitude, sweet intonation, all indicate Miss Willmore to be a lady of culture and aesthetic refinement. Her voice is bewitching in its melody-is quite flexible, soft, and 'tis vet clear and merry. In her character of the Stave, Miss Willmore seems indeed a mortal, artless, yet beautiful as the marble from which she was carved -in other words, when she comes upon the stage and there displays such simplicity, gentle confidence, innocent glee and unthought love, she seems almost the realization of an artist's ideal.
